

# GOD KNOWS I WANT TO BE THERE

*I can see a place just inside of my mind  
That is filled with loving people who care.  
The place that I can see will exist for eternity,  
And Gods knows I want to be there.*

*All the people there are so wonderful.  
They know the right clothes to wear.  
They know how to love like the angels above  
And God knows I want to be there.*

*Their personalities are all it takes to please.  
They know what it means to be fair.  
They all treat each other like sisters and brothers,  
And God knows I want to be there.*

*At this place there is no stealing and killing.  
One person's burdens are everyone's to bare.  
This place has to be the place of grace  
And God knows I want to be there.*

*At this place there is only love and respect.  
There is nothing but sounds of wonder in the air.  
The old and the young share much time in fun  
And God knows I want to be there.*

*The people at this place have conquered lust and greed.  
Every couple is a faithful pair.  
Women and men have no respect for sin  
And God knows I want to be there.*

*These people that I am talking about are Christians.  
They take the holy spirit with them everywhere.  
What the spirit does is keep them alive in love,  
And God knows I want to be there.*

*When these people see their neighbors in need  
They are always more than willing to share.  
These people are God's people who live in the spirit,  
And God knows I want to be there.*
